PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 5+ years of experience architecting and delivering high-performance web and mobile applications at scale. Proven track record building enterprise CRM/ERP systems, real-time platforms, and cross-platform mobile apps across diverse industry domains including fintech, e-commerce, and edtech. Expert in React, Next.js, React Native, NestJS, and TypeScript, with a strong focus on clean architecture, performance optimization, and collaborative team delivery. Adept at translating complex business requirements into robust, maintainable technical solutions.

TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, JavaScript (ES2022+), Redux, TanStack Query, Tailwind CSS v4
Mobile	React Native, Expo, cross-platform iOS & Android development
Backend	Node.js, NestJS, Express.js, REST APIs, WebSockets, real-time systems
Databases	PostgreSQL, MySQL, MongoDB — schema design, indexing, query optimization
Tools & Infra	Git, GitHub Actions, Firebase, Stripe API, OpenVPN integration, Agile/Scrum
Languages	Armenian (native), English (B2), Russian (fluent)

PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer | Fnet

April 2025 – Present

- Led architecture and development of an enterprise-grade CRM/ERP platform for billing and resource management, serving internal operations teams and improving invoicing accuracy by eliminating manual processes.
- Designed and implemented a role-based access control (RBAC) system supporting multiple user tiers, reducing unauthorized access incidents and enabling granular permission management across 10+ modules.
- Engineered real-time reporting dashboards using Next.js and TanStack Query, cutting report generation time significantly and providing stakeholders with up-to-date operational insights.
- Integrated frontend with NestJS microservices via RESTful APIs; introduced performance optimizations (code splitting, lazy loading, caching strategies) that improved page load times and user experience.

Stack: Next.js, React Native, NestJS, TypeScript, Tailwind CSS v4, TanStack Query, PostgreSQL

Mobile Engineer | Just Code

March 2023 – February 2024

- Delivered 4+ production mobile applications across social media, e-commerce, VPN, and children's gaming verticals, all shipped on schedule and within scope.
- Built and integrated Stripe payment flows and OpenVPN connectivity modules, enabling monetized subscription features and secure networking for consumer-facing apps.
- Collaborated cross-functionally with designers, QA engineers, and backend teams in an Agile environment; consistently met sprint goals and contributed to technical grooming sessions.
- Implemented Firebase push notifications and real-time data sync, improving user retention metrics across social and e-commerce products.

Stack: React Native, Expo, Redux, Node.js, Firebase, Stripe API, OpenVPN, Git

Full Stack Developer | EISY

May 2021 – January 2022

- Built and maintained full-stack web platforms for client projects, delivering scalable frontend interfaces and backend services within a collaborative team environment.
- Contributed to e-commerce and educational product development using React, Next.js, Vue.js, and Node.js, ensuring responsive UI and RESTful API integration.

Stack: React, Next.js, Vue.js, Node.js

EDUCATION

M.Sc. Computer Science — Yerevan State University

2023 – 2025

B.Sc. Informatics and Applied Mathematics — Yerevan State University

2019 – 2023
